SoftSwim "B" level to 50 ppm
1 quart BioGuard Winter Algaecide 40
Plus Top off Optimizer Plus (about 10 lb)
- **20,000 TO 30,000 GALLONS**
3 bottles SoftSwim "C"
Top SoftSwim "B" level to 50 ppm
1.5 quarts BioGuard Winter Algaecide 40
Plus Top off Optimizer Plus (about 15 lb)
- **OVER 30,000 GALLONS**
4 bottles SoftSwim "C"
Top SoftSwim "B" level to 50 ppm
2 quarts BioGuard Winter Algaecide 40
Plus Top off Optimizer Plus (about 20 lb)

ALL POOLS:

Adjust pH as needed
Clean Liner with BioGuard Off the Wall Surface Cleaner
Clean Filter with SoftSwim Filter Cleaner
Clean ladder treads and Solar Blanket with BioGuard Stow Away
Allow winter chemicals to circulate for 1 hour
Leave Water level at normal swimming level
See Fall Winterizing Checklist for more detailed information

NEVER DRAIN your pool. The liner will shrink, voiding the warranty and could cause damage to your pool. In gunite, plaster, or even fiberglass pools removal of the water from the pool could result in the pool structure "floating" and causing serious damage to the structure.
